Key Findings & Observations

Cancellation note on an active shipment [HIGH]

74 of 100 shipments.

Open more than 30 days [MEDIUM]

1 of 100 shipments.

Shipping charge over 3× the median [MEDIUM]

21 of 100 shipments.

Recommendations

1. **Confirm with the courier; stop or raise RTO, and claim back charges if not moved.** [HIGH PRIORITY]
   Cancellation note on an active shipment
2. **Escalate the AWB list to each courier and check for loss.** [MEDIUM PRIORITY]
   Open more than 30 days
3. **Audit this invoice before payment.** [MEDIUM PRIORITY]
   Shipping charge over 3× the median

Data Scope & Limitations

- Results cover only the supplied records; full dataset coverage is not established.
- Shipping charges are not collected revenue, profit or confirmed losses. Currency is as supplied.
- Some cancelled shipments lack a recorded cancellation reason.
- Check not run, field missing in the data: Delivery date on file but status still open
- Check not run, field missing in the data: Courier remark says delivered

This report was generated with AI assistance from the data supplied at generation time. Figures in the metrics and tables were calculated directly from that data; narrative interpretation should be reviewed before it is used for business decisions.
